

## ACR Reciprocators and PRC Control units

## Announcement

**No spare parts are available anymore  
for ACR Reciprocators and PRC Control units!**

St. Gall, Feb 18<sup>th</sup> 2013

Dear all

Please be informed that with **immediate effect** Gema Switzerland is no more in the position to supply spare parts on a regular basis for the ACR Reciprocators and PRC Control units.

In case of breakdown of an ACR or/and PRC unit, both items have to be replaced by a new package including a ZA05/06 reciprocator and CR05/06 control unit.

The combination of a ZA reciprocator with a PRC control or an ACR reciprocator with a ZA control is not possible.

Best regards
