

Product Phase out and Replacements

St. Gall, Dec 21th 2011

Dear Sir and Madam

During the last year we have developed and introduced a series of attractive new products. In order to keep our product range attractive and cost-effective we will phase out older products and replace them with new ones, we will also phase out products with a very low demand. Below you will find the complete list of changes:

Controls:

PC Gematic	replaced by	CM30
CR04 axis control	replaced by	CR06

Axes:

ZA02 Vertical axis	replaced by	ZA05
SR01 Swivel axis	replaced by	SR02
UA02 Powder gun axis	replaced by	UA03
XM01 Horizontal axis	replaced by	XM02
AR01 Rotating axis	replaced by	AR02
ZA03 Pneumatic axis	phased out completely because of low demand	

Sieves:

VS01 Sieve under cyclone	will be replaced by	US05
PS4 Powder sieve (for MFR)	will be phased out completely because of low demand	

Powder center:

VZ01 with Injector IG02	will be kept because of strong customer demands (Please be aware of 8 weeks delivery time.)	
VZ02, VZ04	will be replaced by	OC02
OC01 OptiCenter	will be replaced by	OC02
PG1 Gun Tropical	will be phased out completely because of low demand	

Booth **LBS** and **stainless steel ducting** are available on special request only and will be removed from pricelist because of low demand

All changes are effective from Jan 1st 2012.

Best regards
Angelika Hecht
Manager Marketing and Communication
